Description
Lume Consulting Group is seeking a User Experience / Interaction Designer (UX/UI Designer) to support a California State government application modernization initiative. This role will focus on improving user interfaces, user workflows, and customer interaction experiences across enterprise systems.

Responsibilities

Responsibilities

- Design intuitive and user-friendly web-based interfaces
- Collaborate with business and technical stakeholders
- Develop wireframes, workflows, mockups, and UI recommendations
- Support customer experience improvements
- Assist with usability and accessibility considerations
- Participate in system modernization and enhancement initiatives
- Support design implementation activities

Qualifications

Required Qualifications

- Bachelor’s degree in IT, Engineering, Design, or related field (or equivalent experience)
- Minimum 3 years of experience with:
    - Dynamics 365
    - Power BI
    - workflow automation
    - DocuSign or electronic signature platforms
- Minimum 1 year of experience designing and implementing web-based user interfaces
- Experience supporting DRM/customer relationship management platforms
- Strong UI/UX design and stakeholder collaboration skills

Desired Qualifications

- California State government consulting experience
- Experience designing interfaces for enterprise operational systems
- Experience with accessibility and responsive design standards
